

Each year for the last 9 years the Employee Energy Conservation Committee has monitored the electrical energy use at all of our schools.

To help promote energy conservation, schools that reduce their consumption receive a rebate equal to 25% of the savings. About 67% of schools receive rebates.

Each year the Secondary and Elementary schools that perform the best and the most improved are recognized at a School Board Meeting and awarded a plaque to keep at the school as well as being recognized on a plaque that is displayed at the board office.

I am pleased to inform you that Sheridan Park has won most improved for elementary schools. The awards will be presented at the February, 8, 2011 board meeting.

Congratulations
